Howdy Circle Masters, the good old American *Circulator* is here again. Let's see what we can stir up this month. First, the contest is in the books for another year. Challenges brought on by site issues were resolved in spite of the combat folks being separated from everyone else by new tennis courts and a contractor's truck planted firmly in the scale circle. Thanks to everyone who helped make this endeavor a success. The wind wasn't quite up to the hurricane force we are accustomed to and the contestants who made the trip all appeared to enjoy themselves. That's the single most important factor here. Why run a contest if it ends up being a big dud where nobody has fun? Most of the usual rabble of contestants were there again to take their shots at winning one of our famous refrigerator magnet prizes. Are we doing it again next year? Sure, why not. Pictures are featured in these pages.

What else do we have? June is winding down, so I hope some of our club members are able to get some flying in. I have a dirty secret. I have not flown a single control line model yet this season. Imagine the shame, I live on a seventy five acre pad and I don't have a flying spot to call my own up here at Circle Masters outpost North. I don't deserve to be your newsletter editor. I would throw me out if I were you guys before the club's reputation is ruined.

I received an email from John Schramjet a while ago inviting us to the Bong Eagles free flight club's annual pizza party at the East Troy airport. The flyer is in the following pages. Let me lay this on you. We are invited to this shin dig every year and I don't remember anyone from our club making the effort to attend except for John S. and me and even that is spotty at best with my lousy work schedule. Go to this event. There is room to fly adjacent to the taxi way, if nothing has changed. The party is held at Tabair, a warbird service operation, which is open for you to check out. The food is good and more importantly, cheap. And lastly, the conversation is wonderful. These folks are good natured and you may be surprised by how much we have in common. Plus you won't have all that guilt you would otherwise experience by hanging around with a bunch of R/C nuts.

The AMA has been emailing updates regarding the current situation with legislation in congress. Take the time to read this info. As you probably know already, FAA registration of model aircraft has been thrown out by a federal court. Both the house and senate are considering bills dealing with model aircraft. The latest AMA message shows the differences between the versions in their respective houses. Pretty interesting read. Being hashed out now, is what constitutes a community based authority to govern model aviation. You can see why the AMA is involved here as well they should be.

See you at the meeting. If you enjoy your freedom, thank a military veteran or police officer this Independence Day. Remember, a couple of our own are out there doing their part right now. One is keeping Uncle Sam's B-52s ready to rumble at Barksdale AFB and one is plying the briny deep to parts unknown on an aircraft carrier with the Gray Wolves E/F-18 Growler squadron. If you are inclined to speak with the Almighty, put in a good word for Kelsey and Erik.

Catch you later,

BigHow

CIRCLE MASTERS FLYING CLUB
Meeting Minutes for June 2017

The June meeting of the Circle Masters Flying Club was held at on Saturday June 3rd at the Dan Tetzlaff Memorial Flying Field.

The meeting was called to order by President Greg @ 1:05 PM. The members (11) had all received the MAY newsletter and had read the minutes of that meeting. Those minutes were approved as published.

The treasurer's report was given by Wayne. He reported that there had been no transactions since last month. His report was approved.

REPORTS & ANNOUNCEMENTS: Greg, Don and Jason all reported on the club's participation at the Lisbon Easter event. All of the gliders (240) were passed out to eager attendee's.

OLD BUSINESS: Club Contest: C/D, Pete, reviewed with all members to be sure there will be enough support for all events. Those responsible for their various areas responded that all was ready. Also, a hot day with light winds was predicted.

NEW BUSINESS: There was no new business.

WEB BUSINESS: Dave reported that there was nothing new to report, again.

All worthwhile business having been discussed, Greg asked for a motion to adjourn. It was moved and seconded to adjourn the meeting at 1:35 PM.

SHOW AND TELL: Pete brought his new Twister powered by an "O.S. .25". Hard to believe, but true.

Submitted by: Wayne M. Schmidt, Secretary/Treasurer

Upcoming Events GO TO THE MEETING

July Meeting: Saturday July 1st, Sussex Village Park, meeting at 1:00 PM with flying before and after.

Bong Eagles annual pizza party: Tuesday July 11th East Troy airport, 4 PM until ? See flyer for more info.

EAA KidVenture July 24th-30th Oshkosh WI. Contact Melissa if you need more info.

Town of Lisbon Fun Fly and August meeting: Saturday August 12th Town of Lisbon Park. Historical event opens at 9:00 AM so we should be there earlier to set up our shade tents, etc.

Sussex Antique Power Show: August 26th and 27th, Sussex village Park. This is our premier community interaction event. All hands needed to fly demos and training flights with children.

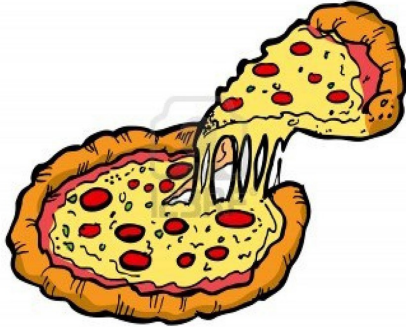

Treetown contests: August 26th and 27th Windy City Speed Bash. Treetown Midwest Regional Championships contest, September 3rd. Both at Aurora Municipal Airport, Sugar Grove IL.

I found this pic online. Does anyone know anything about this machine?
Looks like a fun sport ship if it flies well.

Jim Gerszewski

Home # 262-786-3689

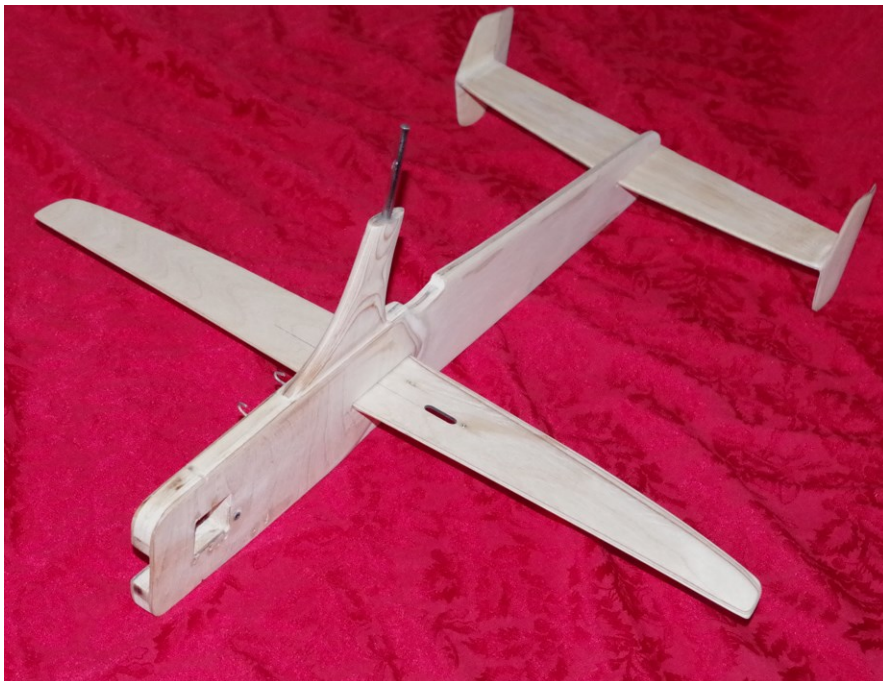

Cell # 262-717-8299

Bring a model to fly - weather permitting

***Full scale planes will be on display.**

On the Bench

Here is my latest building project, the newest version of autogyro. Currently I am working on the bearing carrier for the rotor, the Achilles heal for my earlier designs. I may end up going back to a bushing in the rotor instead of ever more complex bearing arrangements. Now I can't remember why I got away from bushings on these birds, they worked well, if not always the smoothest. Also pictured is the spanking new Webra .32 that's going to provide the power. No more of these excellent mills being produced. Thankful to get my paws on this one!
